

UV INSPECTION UNIT

UV-A LED hygiene inspection unit for professional inspection

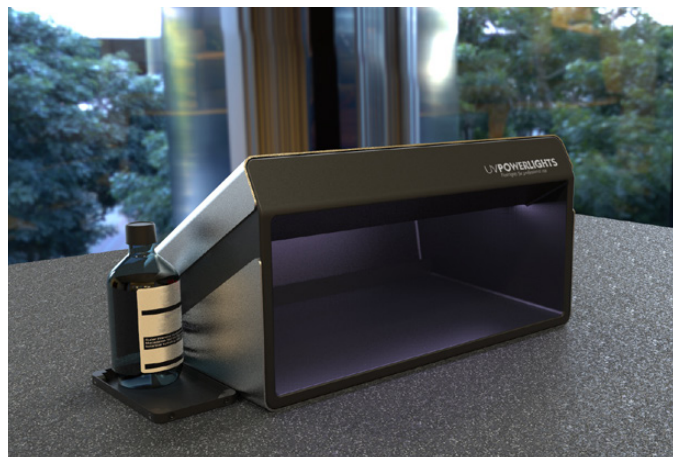

POWERLIGHT INSPECTION UNIT

- 100-240 V ~ 50-60 Hz
- 18 W power consumption
- 2x 9 Watt ASTRON UV-A LED
- Lifetime Astron LED 25,000 hours
- EMC / CE / RoHS / Reach compliant

UV POWERLIGHTS
Flashlights for professional use

UV-A inspection unit for professional inspection

UV inspection in cleanrooms is of utmost importance to maintain the integrity of the controlled environment and prevent contamination.

Cleanrooms are used in industries like pharmaceuticals, electronics, aerospace, and healthcare, where even minor contaminants can have significant consequences.

The advance of UV inspection units in cleanrooms is driven by the need to maintain the highest levels of cleanliness, prevent contamination, and meet stringent industry regulations and standards.

These advanced units play a crucial role in ensuring that personnel within the cleanroom environment follow proper hand hygiene procedures, reducing the risk of contamination and maintaining product quality and safety.

Good hygiene practices help to control and prevent the spread of infection and cross contamination.

Technical specifications

Technical name	: UV inspection unit I
Power supply	: 100-240 V ~ 50-60 Hz
Power consumption	: 18 W (2 lamps)
Lamps	: 2x 9 Watt ASTRON UV-A LED
Lamp lifetime	: Astron LED: 25,000 (heures/hours)
Electrical standards	: EMC / CE / RoHS / Reach compliant
Dimensions	: 580 x 365 x 150 mm
Material	: Coated steel casing
Weight	: 8,5 Kg
Quality certification	: ISO 9001
Consumables	: 2x 9 W UV-A LED lamps
Power cord	: 1.7 m cable
Mounting position	: Table position
Manual	: Supplied with the device
Protection class	: IP 20
Guarantee	: 2 year return to base
CE	: Yes
